Work Experience

Himalayan Horizon Advisory
Role: Frontend Developer
Date: December 2024

- Designed and developed a responsive website for a consultancy specializing in N4 and N5 Japanese classes.
- Utilized **HTML**, **CSS**, and **JavaScript** to create an engaging and mobile-friendly user interface.
- Improved user experience through intuitive navigation and clear layout, increasing visitor engagement.
- Delivered the project on time, showcasing exceptional project management and technical skills.

Career Objective

Aspiring full-stack developer with a strong foundation in frontend technologies, including HTML, CSS, JavaScript, and Tailwind CSS. Passionate about creating dynamic, user-friendly websites and constantly learning new skills to enhance development capabilities. Currently pursuing a Bachelor's degree in Computer Science and Information Technology (BSc.CSIT) and aiming to contribute to innovative and impactful projects.

Projects

Smart Dustbin

- Developed a "Smart Dustbin" for a college exhibition program, integrating sensors and mechanisms to automate waste disposal.
- Gained recognition and certification from the program committee for innovative design and implementation.
- **Date**: August 2023

Skills

Technical Skills:

- **Frontend Development**: Advanced in HTML, CSS, JavaScript, and Tailwind CSS
- **Programming Languages**: C, C++, Python
- **Design Tools**: Graphics Design, Logo Design
